MY CAREER OBJECTIVE:

As a medical professional, to manage a health organization that would provide health facilities at all levels & to every group of people. My quality of being helpful, self motivated

would insist me to provide best medical facilities to all sections of the society.

GLIMPSES THROUGH MY CAREER:

Started my career with the foundation of "Beramji's Hospital" on 6th August 1977 that comprised of a Medical Clinic, which later on became a fullfledged successful Hospital by 1984 Gradually, new departments were added like Gynaecology, General Surgery, Urology and Orthopaedics with great success.

Out of sheer interest, I took up basics course in Acupuncture in 1982 from St. George's Hospital (Government Institute). A lot of study was initiated in the treatment of Asthma, Paralysis & Orthopaedics with Good results. For the next 18 years, continuous efforts were

put in to study the results of Acupuncture in the above subjects, (in spite of a very busy schedule in management of a surgical Hospital). Finally, I was convinced of the authenticity

of Acupuncture and in **2001** I took a very important decision of totally stopping a very successful practice of Allopathy in order to devote my time in the study of Acupuncture. I concentrated only in Orthopaedic cases so as to master the subject gain expertise in this particular area. I started treating cases of Slip disc, spondylosis, arthritis, etc with amazing

results. *It was indeed a very Big risk which I took to sacrifice my Allopathy practice and go*

on the unchartered Ocean of Acupuncture knowing not, where it would Land.

I started adding departments of Physiotherapy, Kerala Ayurveda, Dietician, which further helped me to become very successful and today we can say with authority that we treat all

Orthopaedic cases without any Pain Relief **drugs or Surgery** for which we have received great recognition from patients all over India and Abroad. In addition, I regularly hold training lectures for "**How To Avoid Backache**" in my Hospital and Corporates, Rotary Clubs, Societies, etc.

Today, Beramji's Hospital is a 34 bed Hospital having Acupuncture O.P.D./ Day Care & Admission. We daily treat 60-70 patients per day . Our patients are not only from Mumbai but also from all over India & the World- U.S.A, U.K, Australia, Singapore, Hong Kong, Mauritius, Tanzania , etc.

My Faith in Myself & God the Almighty, I succeeded in achieving the almost

Impossible and managed to get Acupuncture its due status by **convincing** the Maharashtra

Government to take an important step by giving **“Recognition to Acupuncture”** as a separate mode of Therapy – The **Maharashtra** Cabinet gave its due acknowledgement on **August 4th 2015 and Acupuncture Bill got passed by Maharashtra Assembly at Nagpur in Dec 2015** which will be written in **Golden Letters** in the **History of Maharashtra.**

The President Of India gave his consent in April 2017

I believe every individual must contribute something back to Society and God has given me the Honour to serve Humanity by giving one more **Medical Therapy** as a **Gift** to the **People of India.**

QUALIFICATIONAL SUMMARY:

Year Institution Level Achieved
